

NORTH BRONX HEALTHCARE NETWORK Leverages the QuadraMed Corporation® (QCPR®) System for development of order sets & clinical documentation

Jacobi Medical Center, Bronx, NY, -- July & August 2009 -- Negley, Ott & Associates, Inc.'s consultant, Anna May Petronella, RN continues providing consulting support on the QCPR® clinical system for design and configuration development of functionality for both the Psychiatry and Obstetric departments.

The configuration and development support that NOA has been involved with at Jacobi Medical Center includes the following types of orders and clinical documentation:

(Psychiatry Department)

- Comprehensive DC Summary to include a Target Medical Conditions Field
- Order Sets for Falls Precautions
- Order Sets for Aspiration Precautions
- Order Sets for Visitor Restrictions
- DVT Risk Assessment specific to Psychiatry

(Obstetric / Gynecology Department)

- Provider Notes:
 - OB Triage
 - OB Triage Addendum Note
 - L&D Progress Note
 - Delivery Note
 - Postpartum Note
 - OB Discharge Summary
 - NB Birth Certificate
 - Interactice Care Grid for L&D
- Nursing Notes:
 - OB Triage
 - OB Triage Follow Up Note
 - ICG for Nursing Clinical Desktop

These project initiatives represent a significant accomplishment towards incorporating best-demonstrated-practices via the QCPR® system at **Jacobi Medical Center** and **North Central Bronx Hospital**. The lead NOA consultant on this project from NOA continues to work closely with the IT leadership and project team from Jacobi Medical Center.

Jacobi Medical Center is part of the **NORTH BRONX HEALTHCARE NETWORK**, and is one of the multiple facilities of the **New York City Health and Hospitals Corporation (NYCHHC)**.

Congratulations to **Jacobi Medical Center** and NOA's clinical consulting team for continued successes in deploying the QCPR® system. This ongoing deployment is another example of how NYCHHC continues to demonstrate quality and excellence in

meeting community healthcare needs by using the QCPR® system as an integrated electronic health record.

About Negley, Ott & Associates, Inc.

NOA was formed in 1992 by IS professionals with a desire to provide hospital information system and clinical professionals with best demonstrated practices in conjunction with implementing clinical software systems that focus on patient care. The issues, personalities, opportunities, challenges and solutions required by clinical system implementations require the ability to meld sensitivity to clinical processes with the realities of computing and patient care delivery. To date, NOA has provided services to over 70 hospitals installing clinical systems using an approach that stresses both outcomes and knowledge transfer. Supporting so many users, both during and after their installation, gives NOA the opportunity to understand the issues that make clinical systems work, and those that don't.
