

NOA continues providing product expertise and project team augmentation for deployment of QuadraMed's EHR Solution

October 2009: Savannah, GA & Reston, VA –Negley, Ott & Associates, Inc. (NOA), clinical systems consultants and **QuadraMed® Corporation**, continue working together to provide customers with best demonstrated practices and product expertise via the strategic agreement for NOA to perform implementation consulting and support services for QuadraMed's EHR solution, QuadraMed Computerized-Patient Record (QCPR) . NOA has been leveraged for augmenting QCPR teams in various capacities. During the month of October NOA's Lewis McMaster, RN was engaged to provide education support on the QuadraMed CPR™ system. The education support offered by NOA presented a database fundamentals course and a Nursing Module course specific for one of QuadraMed's client sites. The database course is a key educational offering and enables clients to achieve a greater return-on-investment for the CPR software using the organic tool set that comes with the system.

About Negley, Ott & Associates, Inc.

NOA was formed in 1992 by IS professionals with a desire to provide hospital information system and clinical professionals with best demonstrated practices in conjunction with implementing clinical software systems that focus on patient care. The issues, personalities, opportunities, challenges and solutions required by clinical system implementations require the ability to meld sensitivity to clinical processes with the realities of computing and patient care delivery. To date, NOA has provided services to over 60 hospitals installing clinical systems using an approach that stresses both outcomes and knowledge transfer. Supporting so many users, both during and after their installation, gives NOA the opportunity to understand the issues that make clinical systems work, and those that don't.
