

NEGLEY, OTT & ASSOCIATES, INC.

December 2010 - NEGLEY, OTT & ASSOCIATES, INC supports Forrest General Hospital, Hattiesburg, MS in EMAR Go-live.

Forrest General Hospital leveraged NOA's Judith Levi, RN, MSN to support the implementation of an Electronic Medication Administration Record (EMAR) on the QuadraMed CPR® (QCPR) System. This implementation was deployed on three of the hospital's Medical, Surgical, and Neurological Units as part of a phase-1 pilot initiative.

Forrest General Hospital began a hospital-wide Meaningful Use project in 2009 in order to comply with federal regulations. An integral part of that initiative's success depends on deployment of EMAR on the QCPR system. Due to the success of the EMAR implementation on Forrest General's Medical, Surgical, and Neurological Units, the next phase of the EMAR project is now underway. This phase involves implementing bar code medication administration (BCMA) on the same pilot units. Once BCMA is successfully deployed on the pilot units, BCMA/EMAR will be deployed for additional targeted units of the hospital.

About Negley, Ott & Associates, Inc.

NOA was formed in 1992 by IS professionals with a desire to provide hospital information system and clinical professionals with best demonstrated practices in conjunction with implementing clinical software systems that focus on patient care. The issues, personalities, opportunities, challenges and solutions required by clinical system implementations require the ability to meld sensitivity to clinical processes with the realities of computing and patient care delivery. NOA provides a full range of clinical systems deployment support including initiatives for achieving **Meaningful Use**. To date, NOA has provided services to over 100 hospitals installing clinical systems using an approach that stresses both outcomes and knowledge transfer. Supporting so many users, both during and after their installation, gives NOA the opportunity to understand the issues that make clinical systems work, and those that don't.

About QuadraMed Corporation

QuadraMed® is a leading provider of award-winning healthcare technologies and services that help turn quality care into positive financial outcomes.
