NEGLEY, OTT & ASSOCIATES, INC....

WELCOMES **KAREN GODDARD, MT (ASCP)** AS A NEW CONSULTANT TO THE NOA TEAM.....

Karen joins NOA's excellent team of seasoned clinical IT experts and will use her extensive clinical systems training, building, and deployment experience in support of NOA's many CPR implementations as hospitals nationwide deploy EHRs and prepare to meet Meaningful Use criteria.

In 1985, Karen graduated from Armstrong Atlantic State University with a Bachelor of Science in Medical Technology. Karen is a Medical Technologist by education and experience and has worked with many LIS and hospital systems in her 25 year healthcare clinical computing career. She has experience in database building, user training, and system administration on multiple clinical and laboratory systems including QCPR. NOA will also leverage Karen's laboratory expertise and her involvement in the development of interfaces in support of client sites to meet Meaningful Use goals.

About Negley, Ott & Associates, Inc.

NOA was formed in 1992 by IS professionals with a desire to provide hospital information system and clinical professionals with best demonstrated practices in conjunction with implementing clinical software systems that focus on patient care. The issues, personalities, opportunities, challenges and solutions required by clinical system implementations require the ability to meld sensitivity to clinical processes with the realities of computing and patient care delivery. NOA provides a full range of clinical systems deployment support as well as targeted initiatives towards achieving **Meaningful Use**.

To date, NOA has provided services to over 60 hospitals installing clinical systems using an approach that stresses both outcomes and knowledge transfer. Supporting so many users, both during and after their installation, gives NOA the opportunity to understand the issues that make clinical systems work, and those that don't.
