

## OUR HISTORY

### *“Best-Practice for Knowledge-Based Charting*

Our clinical consultants have years of implementation experience and product expertise with Sunrise Clinical Manager™ and Knowledge-Based Charting™. By combining our Clinical Manager product expertise with best-demonstrated-practices associated with a Knowledge-Based Charting implementation we can help your organization achieve the greatest success. NOA provides staff augmentation consulting services with a standardized tool set to assist with deploying Knowledge-Based Charting. Staff augmentation enables customers to leverage our expertise in both process and configuration with a Knowledge-Based Charting deployment.

NOA was formed in 1992 by IS professionals with a desire to provide hospital information system and clinical professionals with an alternative to reliance on consulting firms with only general skills involving methodology and design when implementing systems with a clinical or patient care focus. NOA has technical and clinical expertise on configuration and deployment of Knowledge-Based Charting and clinical documentation with Sunrise Clinical Manager™. This knowledge is essential in order to deliver real solutions for a customer.

To date, NOA has leveraged our product-specific knowledge to provide consulting support services at over 60 hospitals, installing clinical systems using a best demonstrated practices approach that stresses both quality outcomes and knowledge transfer.
